Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 April 2005.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 16,17,20-23 and 29 is/are pending in the application.
- 4a) Of the above claim(s) 18 and 19 is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 16,17,20-23 and 29 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 24 September 2003 is/are: a) ☒ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

DETAILED ACTION

This is the second office action for the serial number 10/671,241, TRIPOD STABILIZER AND LIGHTED LENS CAROUSEL, filed on 9/24/03.

Election/Restrictions

Applicant's election of group 1 with claims 16-17, 20-23 and 29 in the reply filed on 4/20/05 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 29 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 29, the word "means" is preceded by the word(s) "slotted" in an attempt to use a "means" clause to recite a claim element as a means for performing a specified function. However, since no function is specified by the word(s) preceding "means," it is impossible to determine the equivalents of the element, as required by 35 U.S.C. 112, sixth paragraph. See *Ex parte Klumb*, 159 USPQ 694 (Bd. App. 1967).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 16-17 and 20-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over US Patent # 6,454,228 to Bosnakovic in view of US Patent # 1,598,943 to Tessier.

Bosnakovic teaches a stabilizing plate (18) being formed of a substantially rigid material and means for attaching (74) the stabilizing plate to each leg (6) of a tripod. The means for attaching includes means for attaching a portion (22) of the stabilizing plate to a member (8). The member is being attached to one of the each leg of a tripod at a location that is between a pair of opposite ends of the each leg. The means for attaching a first end of the member is at location that is disposed proximate the center of the stabilizing plate. The plate having a plurality of ends including an opening (24) to adapt to receive a member therethrough.

Bosnakovic teaches the means for attaching but fails to teach the means for attaching prevents leg from pivoting. Tessier teaches the means for attaching (49,55-56) prevents leg from pivoting. It would have been obvious for one of ordinary skill in the art at the time the invention was made to have modified Bosnakovic's means for attaching with bolt and nut as taught by Tessier to improve the stabilizing of the tripod.

Art Unit: 3632

Bosnakovic teaches the stabilizing plate but fails to teach the plate is substantially triangular in shape. It would have been obvious for one of ordinary skill in the art at the time the invention was made to have modified shape of Bosnakovic's plate to triangular to provide an ornament appearance.

Allowable Subject Matter

Claim 29 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The following is an examiner's statement of reasons for allowance: the prior art fails to teach wherein the slotted means is adapted to secure a first end of a tripod leg bracket thereto, the tripod leg bracket including an opposite end that is attached to one of the each leg of a tripod.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

US Patent # 6,820,844 to Tiffen et al.

US Patent # 4,215,839 to Gibran

Tiffen et al. and Gibran teach tripod having means for attaching for supporting legs.
